William Peowski, owner of 274 Noank Road, presented to the Commission to propose the enclosure of lower level and upper level porches on the rear of his home. He plans to add sliding glass doors behind the existing porch railing system. Three doors will be added to the top level and three will also be added to the bottom level. Transom glass will be added to the top of the sliders on the lower level. At the top of an existing stairway located on the side of the house he plans to install an additional glass slider. On the opposite side double-hung windows will be added to the top and bottom facade.

The following exhibits were presented:

- Elevation drawings
- Materials list
- Glass slider spec sheet

Moriarty asked for comments in favor or against the application and there were none. The public hearing was closed at 7:10 p.m.

HDC 16-35 – 200 Clift Street; Lester Olin, owner/applicant; Install generator. PIN #261914228966

Lester Olin, owner of 200 Clift Street, appeared before the Commission to seek approval for the placement of a backup generator on his property. He noted that the Connecticut State Building Code requires a generator is placed 18” from a

structure and 5' from any window. He has determined that there is no place near the framing of the house that will work, therefore, he is proposing to put it next to a small retaining wall. The location is approximately 106' from the front property line. It will be mounted on a concrete pad. Existing propane gas tanks will be moved back and the generator placed in front.

The following exhibits were presented:

- Plot map
- Photographs
- Generator spec sheets

Moriarty asked for comments in favor or against the application and there were none. The public hearing was closed at 7:14 p.m.

HDC 16-36 – 401 Noank Road; AGA Madsen Holding Company, owner/applicant; Replace window, signage, & fencing. PIN #261809177469

Chairperson Moriarty sited a conflict of interest and recused herself in favor of Brady for this application.

Andrew Madson, owner of 401 Noank Road, presented to the Commission to request approval of a window that is already installed in the building. He noted that he happened upon a window that would work well as a replacement for the existing sliding window. Admittedly, it was replaced without Commission approval during the renovation process.

The following exhibits were presented:

- Photographs

### III. PRE-APPLICATION HEARINGS

Bill Peowski, owner of 274 Noank Road, appeared before the Commission to propose a change to his previous approval for a split rail fence. He will change the design from split rail to vertical pickets with caps and use a material such as Azek that can be milled or planned to avoid a shiny texture.

Andrew Madson, owner of 401 Noank Road, appeared before the Commission to discuss additional signage. In addition to the bracketed, oval sign already approved, he would like to use a rectangular sign on the face of the building. The sign would be reminiscent of the original sign on the Grossman's Seafood Building. It would be wooden like the oval sign and sit flush with the face of the gable. The applicant also discussed a proposed fence at the rear of the property. The fence would be a wooden privacy wall approximately 10' high and 60' wide. The wall material would match whatever the building siding is, such as clapboard. The wall would be exposed to the street where it extends beyond the building. He noted that the adjacent neighbors are in favor of the fence.
